support services

We support people to regain skills, and independence, and to rebuild their lives, following an acquired brain injury.

Elements Support Service is a specialist rehabilitation service meeting the needs of children, youth and adults with a brain injury or other serious trauma. Working in coordination with the Rehabilitation Team our support is instrumental and focused on reaching the individual's full potential.

Our individually tailored service helps individuals live as independently as possible, promoting full and productive living.

INDIVIDUALIZED SERVICE

Elements is a results-oriented company with a network of knowledgeable and skilled Rehabilitation Support Workers dedicated to providing quality individualized service. Depending on the individual's needs, services may be provided in one of the following settings: community, residential, small-group congregate, in-home, outpatient, school, work or day treatment environments.
